

ETS Change Summary

From ETS Version

ETS v3.0.2 (July 2008)

To ETS Version

ETS v3.0.2 (September 2008)

Changes to the Specification document

- Corrected the Tour/DrillerSignature type to be xsd:nameValue to agree with the xsd file.
- Corrected the ReducedPumpSpeed/StrokesPerMinute type to be xsd:nonNegativeInteger to agree with the xsd file.
- There is a slight change to the wording in the Appendix B Signature Rules section to be more non-vendor specific.

Changes to the XSD files

- Changed the CirculationPump/StrokesPerMinute type from xsd:positiveInteger to xsd:nonNegativeInteger in order to allow for a value of 0.
- Changed the Boiler/BoilerPh minimal value allowed from 0.0 to 1.0.
